

Terracotta eggs with marble effect

Still looking for ideas for your Easter decorations?

With our instructions, you can colour these terracotta Easter eggs with a beautiful marble effect.

1. Fill a bucket half full with water, then shake the colours well before dripping them into the bucket. Do not use more than three colours if possible.

2. Use a thin stick to let the colours run into beautiful patterns.

We recommend using rubber gloves during the colouring process.

3. Carefully dip the egg into the colours.

4. Pull the completely marbled egg out of the water and hang it up to dry.

5. Do not pour the paint down the drain, but remove it completely first with a piece of cardboard or paper. Then pour the water away.

If you get paint on your skin, you can easily remove it with vegetable oil.

You will find everything you need under the following article numbers:

Terracotta eggs: 20243295

Marbling colours: 20232974, 20232975, 20232976
